

Educational Adventures encourages parents to watch the Danger Rangers with their children so the whole family can learn the Danger Rangers' "Safety Rules!"

Here's a few questions you can review with your family after watching "Wild Wheels" to make sure they are Danger Ranger Ready!

1. What is the most important piece of safety equipment to use when cycling, skating, and boarding?
2. What should you do at all intersections?
3. Why is it always important to tie your shoelaces?
4. Name three things you should check before you ride your bike.
5. Is a construction site a safe place to ride your bike?
6. What does this sign mean?
